CASP

Critical Appraisal Skills Programme

On 12th & 13th Feb - 2005

—● Venue ●—

Auditorium,

B.V.V.Sangha's P.M.N.M. Dental
College & Hospital, Bagalkot

LAST DATE FOR REGISTRATION

2nd Feb - 2005

Scientific Session Sponsored by
Colgate Palmolive India (P) Ltd.

Dear Doctor,

CASP aims to enable individuals to develop the skills to find and make sense of research evidence, helping them to put knowledge into practice. CASP's workshops and resources are in three main areas of work which are reflected in CASP's three-arrow logo: finding research evidence, appraising research evidence, and acting on research evidence.

CASP skills are very crucial to post graduate students. These skills help the students to excel in all the areas of their work and improve overall knowledge and efficiency.

CASP also helps you to understand about Evidence based dentistry which involves:

- * Formulating a well-balanced clinical question
- * Identifying articles with the best evidence that answers the question
- * Critically appraising the evidence to assess its validity
- * Determining if the findings are applicable to patient care and deciding how to apply them

with regards,
Dr. Raviraj Desai
IDA Secretary

Course Co-ordinators

1) Vasumathi Sriganesh

Vasumathi Sriganesh holds a B.Sc in Home-Science, and Master's Degree in Library and Information Sciences.

In 1994, at the Hinduja Hospital she computerized all library activities, and introduced the MEDLINE on CD-ROM. At HELP (Health Education Library for People).
