

Five Days Endodontic Training Program

Day 1

- 10 AM. Filling the Forms
Introduction of participants and discussion on their endodontic skills, common problems encountered during endodontic treatment, consensus on the course curriculum
- 10.30 Lecture **1: *Introduction to RCT Instruments and instrumentation***
- 11.30 **Tea Break**
- 11.45 Lecture **2: *Endodontic Diagnosis***
Discussion
- 12.30 **Practical:** Identify and discuss RC instruments, discussion on the instrumentation routine followed by the participants and their limitations
- 1-2 **Break**
- 2 PM **Practical:** Prepare access cavities on extracted teeth
- 3.00 Lecture **3: *Endodontic Myths***
Discussion
- 4.00 Lecture **4: *Access Preparation***
Discussion
-

Day 2

- 10 AM. Evaluation and discussion of Day 1
Seminar by participants
- 10.45 Lecture **5: *Apex locators***
Discussion
- 11.15 **Tea Break**
- 11.30 Lecture **6: *Canal irrigation***
Discussion
- 12.15 **Practical:** Apex locator demo/hands on, Prepare access cavities on extracted teeth
Evaluation and discussion
- 1-2 **Break**
- 2 PM **Practical:** Hand instrumentation and obturation on extracted tooth,
Discussion
- 3.30 Lecture **7: *Rotary endodontics and LSX concept***
- 4.15 **Practical:** LSX prep start to finish on plastic root canal
-

Day 3

- 10 AM. Evaluation and discussion of Day 2
Seminar by participants
- 10.45 Lecture **8: *Periapical radiographs***
Discussion
- 11.15 **Tea Break**
- 11.30 Lecture **9: *SimpliFill obturation***
- 12.15 **Practical** : SimpliFill obturation on plastic block

1-2 **Break**

- 2 PM Lecture **10: *Single visit Endodontics***
Discussion
- 2.45 **Practical**: Access preparation on extracted tooth, LSX preparation, obturation with .02 gutta percha
Evaluation and discussion
-

Day 4

- 10 AM. Evaluation and discussion of Day 3
Seminar by participants
- 10.45 Lecture **11: *Rubber Dam isolation*** 11.30
- 11.15 **Tea Break**
- 11.30 **Practical**: Rubber dam application, Radiographs of obturated teeth, evaluation and discussion.
More access preparations
Endodontic case, subject to availability

1-2 **Break**

- 2 PM Lecture **12: *Endo anesthesia***
Discussion
- 2.45 **Practical**: Sectioning the root tips of obturated teeth and examination under magnification.
Discussion
- Access preparation on extracted tooth and LSX preparation
Discussion
- 4.15 Lecture **13: *Endo complications***
Discussion
-

Day 5

- 10.0 Evaluation and discussion of Day 4
Seminar by participants
- 10.30 *Practical*: Access preparations, LSX instrumentation
Endodontic case, subject to availability
- 12 **Tea Break**
- 12.15 Lecture **14: *Restoration of endo treated tooth***
Discussion

1-2 **Break**

- 2.00 Lecture **15: *Clinical use of Antibiotics***
Discussion
 - 2.45 Lecture **16: *Pulp Therapy in the Primary and Young Permanent Dentition***
Discussion
 - 3.15 Lecture **17: *Management of traumatic injuries to teeth***
Discussion
 - 4.00 Filling the feedback forms
Distribution of certificates
-
